

PAUL QUINN

DRUG AND ALCOHOL PREVENTION PROGRAM

Paul Quinn College regularly provides programming to its students on how to prevent and stop drug and alcohol abuse. The Student Experience Team, Mental Health and Health Services work together to implement individual and small group sessions on the dangers of drug and alcohol abuse, as well as the presentation of healthier coping skills and strategies.

The goal of the Colleges Alcohol and Drug Abuse Prevention Strategies is to

- reduce student health risks on the individual and campus community level by:
- Offering Alcohol, Drug, and Sexual Violence courses tailored for at-risk populations, new students, athletes, and Greeks.
- Serving as a general wellness resource addressing Alcohol, Drugs, Tobacco Use, Sexual Health, Nutrition and Stress with motivational self-assessments

For additional information on the program visit the Student Experience Office, Health Services of the Mental Health and Wellness Clinic, all located in the Student Union Building.
