

# PAUL QUINN

## Office of Career Development

The Office of Career Development will coordinate or facilitate opportunities for participation in career development activities including an annual Career Fair, graduate school visits, and job skills workshops. These activities provide contacts for students and alumni with professionals through various interactions. Students are able to meet with employers, become aware of current internship and hiring requirements, and use that information to improve their skills. The College may also host a Graduate and Professional School Visitation Day annually to provide an opportunity for students and alumni to meet with representatives from various universities to explore graduate and professional programs.

### Services for Alumni

Alumni of Paul Quinn are encouraged to remain in touch with the Career Development and Alumni Affairs Offices. Both offices work together to communicate with alums regarding employment and graduate school opportunities. Additionally, the College is very interested in knowing how our alumni are doing since leaving Paul Quinn.

Please fill out the [Quick Alumni Survey](#) to provide an update to the Alumni Affairs and Career Development Offices. You are invited to complete this survey on an annual basis and whenever you have a significant change in career or graduate school enrollment or completion. Please help keep your Alma Mater in the know!

### Contact Information

If you would like additional information, please reach out to Ms. Jessika Lara for assistance at [jlara@pqc.edu](mailto:jlara@pqc.edu) or 214-379-5494.
