

# PAUL QUINN

## Join The Paul Quinn Recycling Initiative “The Green Team”

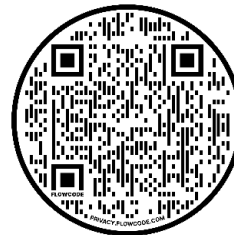

### Mission Statement

As the PQC Green Team, we are charged with bringing attention to the lack of sustainable living practices in our communities. It is up to us to be the change we wish to see by embodying our core values and addressing the lack of engagement in recycling and green living efforts. Our goal is to create an innovative approach to lowering our green gas emissions, limiting waste, reducing our carbon footprint, and educating everyday people on how these issues affect our overall health and quality of life.

### 4 L's of Leadership

1. LEAVE places better than you found them.
2. LEAD from wherever you are.
3. LIVE a life that matters.
4. LOVE something greater than yourself.
