ABOUT PAUL QUINN

Paul Quinn is a place that pushes the boundaries of higher education. As the only Historically Black College and University that guarantees all of its residential students paid employment (via our federal Work College status), our students come to us from a variety of backgrounds and communities – there is no one type of Quinnite. The Paul Quinn educational foundation is rooted in The Four Pillars of a Quinnite Education: 1. Subject Matter Expertise; 2. Urban Work College Model; 3. PQCx (industry-recognized credentials); and 4. Entrepreneurship Capstone. Our goal is to prepare our graduates for lifelong success by immersing them in an educational system that is challenge-based, rigorous, and interdisciplinary.

COMPLETE THE WE OVER ME APPLICATION FOR ADMISSION

At Paul Quinn, we pride ourselves in teaching our students to challenge the status quo. We believe that greatness comes not from doing the same thing everyone else is doing, but in forging a path that others could not travel while doing things that others cannot do. We will do more than just hand you a degree. We will teach you, challenge you, and nurture you with one goal in mind – your greatness.

Paul Quinn students receive four different methods of education during their time on campus. The Four Pillars go beyond the traditional college experience. They prepare our students for a life that will require them to be versatile. When Quinrites graduate, we have prepared them to pursue multiple career pathways – careers aligned with their academic major, leveraging one of their internships into a full time career, utilizing one of their certifications, or bringing their business plan to life.

1.0 SUBJECT MATTER EXPERTISE
